RURAL SERVICE CONTRACT

This Contract made and entered into this 21 day of September, 193 4, by and between School Board, School Dist. #7 Lincoln Twsp. Scott County (Owner) School (Tenant) of a ##### located in Lincoln Twsp. Scott County, Iowa.

....., party of the first part (hereinafter called the "Customer"), and IOWA ELECTRIC COMPANY of Cedar Rapids, Iowa, party of the second part (hereinafter called the "Company"), WITNESSETH:

That the parties to this Contract have mutually agreed and do hereby agree as follows:

1. The Customer is engaged in the business of Education and desires to purchase electrical energy for use on the above designated ##### from the Company, and the Company is willing to furnish said service at the

Rates:-
Minimum monthly bill to be $1.25 per month.
All current consumed to be billed at .15 cents per Kwh.

Mr. R.A Mohr agrees to let the school tap his transformer for service without charge to the School or the Company and that the school or company will not be liable in case his transformer burns out by lightning or other causes.

Company a (##########) (cash) connection fee of $.....for equipment used to serve the Customer including a No. KVA None to 115-230 volt single phase transformer complete with all auxiliary equipment, together with 4 pole span extension of secondary line and a suitable watt hour meter to measure the electrical energy at 115-230 volts, said equipment to be owned by the Company on the monthly rental plan and by the Customer on the cash plan, except that the watt hour meter is to be owned by the Company.

3. All bills for service furnished shall be rendered on or about the 1st day of each month and shall be due and payable within fifteen (15) days thereafter. If any bill for service is not paid within fifteen (15) days after said bill is rendered the Company may have the right to remove the equipment referred to in Paragraph (2) and discontinue furnishing service, but such discontinuance of service shall not terminate this Contract.

4. The Company shall not be liable for damages due to interruption in service and the Customer shall hold the Company harmless from any and all claims or liability for damage or injury to person or persons or property which may arise out of or be caused by the construction, use or operation of that part of the line or equipment which is located on the premises owned or leased by the Customer.

5. This Contract shall be and remain in full force and effect for a period of ten (10) years from and after the date hereof.

INSTRUCTIONS TO DIVISION MANAGERS

This Contract is available to all new Consumers connected after April 1, 1934, but not to present Consumers except as present Contracts expire.

Only an original and one duplicate copy of Rural Service contracts will be prepared. Both copies, properly filled out, will be sent to the Rate Engineer for checking and will then be approved by the General Manager and returned to the Division Manager. The Division Manager will prepare a special Farm Line Contract file in which he will keep the original copy of all Farm Line Contracts—the duplicate copy of which shall be forwarded to the Customer.

The Cash Connection Fee will be as follows: (Customer to own extension and equipment, except meter.)

	2300 volt			4400 volt			6600 volt		
	1.5 KVA	3 KVA	5 KVA	1.5 KVA	3 KVA	5 KVA	1.5 KVA	3 KVA	5 KVA

"EXHIBIT A"

(Not to be filled in)

APPLICATION AND CONTRACT FOR ELECTRIC SERVICE

Cust. Acct. No..... Ext. Cont. No.....

The undersigned, his legal representatives and assigns, hereinafter called the Customer, requests the IOWA-ILLINOIS GAS AND ELECTRIC COMPANY, its successors or assigns, hereinafter called the Company, to furnish in accordance with the terms herein and all regulations of the Company, electric service at.....located and described as follows:.....

.....

.....

The Customer hereby agrees to pay the Company for electric service, furnished hereunder, in accordance with Rate No.....,

..... Sheet No. .....

The minimum charge for electric service in any one month hereunder shall be $.....gross, $.....net, per meter for the first ..... months following the date of establishing service and for each month thereafter the minimum charge shall be as provided in the above mentioned rate.

The rate herein referred to is the present legal rate of this Company as on file with the regulatory agencies having jurisdiction.

For the purpose of this agreement, a month or equivalent period shall be the interval between two consecutive meter readings, provided that there shall not be more than twelve (12) meter readings, for the purpose of rendering monthly bills, in any one year.

If a meter fails to register correctly, the correct amount shall be determined by another meter set in lieu thereof or by the amount registered during the corresponding period of a previous year, as the Company may elect.

The Company does not undertake to furnish continuous service, and it shall not be held responsible for damages resulting from the failure of the supply of electricity at the above premises. The Customer shall hold the Company harmless against any and all claims for damages to persons and property resulting from the use of electricity, or in the installation and maintenance of wires and electrical apparatus on the premises of the Customer, unless such damages arise from wilfull neglect of the Company.

Before connecting any piece of electrical equipment other than lamps, household iron, toaster, waffle iron or such other small electrical appliances, the Customer shall notify the Company in writing ten days in advance so that the Company may make proper inspection to determine whether the connections, meters, transformer, etc., are of sufficient capacity to carry the load. The Customer shall pay for all damages to transformers, meters, service wires and protective devices caused by the Customer's overloading or defective wiring.

The acceptance of this application by the Company is conditioned on the necessary distribution facilities having been made available for serving the Customer either by means of existing lines or newly constructed extensions to be contracted for.

The term of this contract shall be for the period of.....years and.....months next ensuing from and after the beginning of service applied for herein, and thereafter, until terminated by either party giving thirty days' written notice to the other party.

RECEIPT OF A COPY OF THIS FORM IS HEREBY ACKNOWLEDGED.

....., 19.....

.....
Owner.

The undersigned being the occupant of the premises above described hereby agrees that he will comply with all of the conditions of the foregoing application and will make payments to the Company for all electric service which may be furnished to him during his occupancy of said premises.

Iowa-Illinois Gas and Electric Company

CONTRACT FOR LINE EXTENSION OUTSIDE CITY LIMITS

No. 33

THIS CONTRACT, made and entered into this 22nd day of September, A. D. 1945, by and between the undersigned, being applicants for electric service, parties of the first part, and the IOWA-ILLINOIS GAS AND ELECTRIC COMPANY, a corporation duly organized under the laws of the State of Illinois, party of the second part, WITNESSETH THAT:

WHEREAS, The parties of the first part have jointly and severally requested the party of the second part to extend its present electric lines and facilities in order that the parties of the first part may be supplied with, and have the benefit of, electric service, and the party of the second part has agreed to make such extension in accordance with the terms and provisions of this agreement, subject, however, to the rates, rules and regulations for such electric service as are on file in the office of the party of the second part, and on file with, and approved by, the regulatory agencies having jurisdiction:

NOW, THEREFORE, In consideration of One Dollar in hand paid by each of the parties to the other, the receipt of which is hereby severally acknowledged, and in consideration of the premises and of the mutual covenants and agreements herein contained, it is mutually covenanted and agreed by and between the parties as follows:

1. The party of the second part will construct, maintain and own an electric distribution line, hereinafter called "extension," including adequate transformer capacity not to exceed 5 KVA per customer, service lines, and meters, all necessary to deliver single phase, 115-230 volt electric service to the premises of all of said parties of the first part herein; except it is understood and agreed that when such premises are located away from the highway on which the rural extension line is located so as to require a service longer than 150 feet from said extension, the customer served on such premises will provide and maintain at his own expense all the necessary poles, lines, wires and other necessary facilities from the highway to his premises which is in excess of 150 feet. The extension herein referred to is to be located along the highway as indicated on the blue print attached hereto and made a part hereof. All of the extensions and facilities herein contemplated to be constructed, maintained and owned by the party of the second part shall at all times be and remain the property of the party of the second part, without any right, claim or demand of any of the parties of the first part herein.

2. The construction of this extension will be started when the premises of each and every one of said parties of the first part have been sufficiently and adequately wired as set forth in Paragraph 3 hereof, to receive and use the electric service.

3. All wiring and other electrical equipment on the premises of the parties of the first part shall be installed and shall conform to the requirements of the National Electric Code (National Board of Fire Underwriters Regulations) and in accordance with the reasonable rules and regulations of the party of the second part in force from time to time. Said party of the second part reserves the right to inspect the equipment and the finished installations for the purpose of ascertaining if the same satisfy conditions of safety, permanence and adequacy, provided, however, that by such approval of the party of the second part of any of such equipment and installation, the party of the second part does not assume any responsibility or liability in connection therewith or resulting therefrom.

4. The charge for electric service to be paid by the parties of the first part herein shall commence upon notice by the party of the second part to the parties of the first part that the extension is completed and energized.

5. Prior to the completion of this extension and beginning of electric service, each of said parties of the first part will sign an application substantially in the form of the copy printed on the back hereof and marked "Exhibit A" and made a part hereof.

6. The payments to be made by the parties of the first part to the party of the second part for electric service to be delivered hereunder shall be in accordance with the established rate on file with and approved by the regulatory agencies having jurisdiction, and in accordance with said rate, the minimum monthly charge to each of the parties of the first part herein will be not less than $ 4.95 gross, $ 4.50 net, and said minimum monthly charge will continue for a period of 80 months (except as the same may be reduced in accordance with Paragraph 7 hereof) following the date electric service is first rendered hereunder. This net monthly minimum charge above set out is equal to 1.25 per cent of the total cost of the line extension, services, and transformers divided by the number of customers served from said extension and any reapportionment, as hereinafter provided, of the net monthly minimum bills to be paid hereunder shall be on the basis that the sum of the net minimum monthly bills of all customers served from this extension shall be equal to 1.25 per cent of the total cost of the line extension including services and transformers for 80 months from the date service is first rendered.

7. At any time within 80 months after the initial date of service from this extension when additional customers are connected thereto the minimum monthly bills of the parties of the first part will be reduced for the remaining period of the 80 month term hereof provided the total cost of facilities required to serve each such additional customer is less than the total cost of this line extension including all services and transformers then connected thereto divided by the number of customers then served from this line extension. The party of the second part will notify the parties of the first part, from time to time, of any reduction in the minimum monthly charge as set forth in the preceding paragraph 6 hereof, on account of additional customers being served from this line extension, and such reduction will take effect from the date of such notice. If it shall be necessary for the party of the second part to install additional line extension, either along the same highway on which the extension hereunder was made or laterally thereto, in order to serve an additional customer or customers, such additional customer or customers shall not be considered as being served from the extension constructed hereunder and no reapportionment of monthly minimum bills hereunder shall be made.

8. The obligation of said party of the second part for the erection of the extension herein referred to is contingent upon the condition that the necessary right of way and tree trimming privileges are granted to the party of the second part herein.

9. This contract shall remain in full force and effect for a period of 80 months from and after the initial date of rendering service from said extension and will be irrevocable by either of the parties hereto and shall be binding and obligatory, jointly and severally, upon the parties of the first part, their respective legal representatives and assigns and upon the party of the second part, its successors and assigns.

10. Any notice required to be given under the provisions of this contract shall be by mail and addressed to the parties of the first part in accordance with the mailing address as indicated opposite their respective signatures on this contract, and such notice shall take effect in each and every case from and after the date of the notice.

IN WITNESS WHEREOF, The parties of the first part have hereunto subscribed their hands and seals and the party of the second part has caused these presents to be signed by its duly authorized officers and its corporate seal hereto affixed, the day and year first above written.

The parties of the first part hereby acknowledge receipt of a copy of this contract.

RURAL SERVICE CONTRACT

This Contract made and entered into this 1 day of July, 1945, by and between School Dist. #7 Lincoln Twp Scott County (Owner) (Tenant) of a farm located In Lincoln Twp Scott Co Iowa,

hereinafter called the Customer, and Iowa ELECTRIC COMPANY

(De Witt Division) of Cedar Rapids, Iowa, hereinafter called the Company, WITNESSETH:

That the parties to this Contract have mutually agreed and do hereby agree as follows:

1. The Customer is engaged in the business of farming and agrees to purchase from the Company all of the electrical energy used or required on the above designated farm, and the Company agrees to furnish said electrical energy at the following rate:

The first 50 KWH used per month @ 9c per KWH
The next 50 KWH used per month @ 5c per KWH
The balance KWH used per month @ 2.5c per KWH

Served from R.A. Mohr transformer

$1.50

Minimum monthly bill $4.50 for a 1.5 KVA Transformer
Minimum monthly bill $5.50 for a 3.0 KVA Transformer
Minimum monthly bill $6.50 for a 5.0 KVA Transformer

2. The Company agrees to furnish a 3 KVA Jointless to 110-220 volt single phase 60 cycle transformer complete with all auxiliary equipment, and a suitable watthour meter to measure the electrical energy at 110-220 volts, also an outdoor meter box, and safety switch and one span of service line, all of said equipment to be owned by the Company.

3. The Customer agrees to pay to the Company $ General to cover the cost of V pole spans of service line at $20.00 per span, said service line to be located on the premises of and to remain the property of the Customer.

4. All bills for service furnished shall be rendered monthly. If any bill for service is not paid within 10 days after rendition the Company may, if it so elects, discontinue the service and remove the equipment outlined in Paragraph Two until all past due bills are paid, but such discontinuance of service shall not terminate this contract. The Customer agrees to accept billing for electric service under this contract as soon as service is available.

5. The Company shall not be liable for damages due to interruptions in service, and the Customer shall hold the Company harmless from any and all claims or liability for damage or injury to persons or property which may arise out of or be caused by the construction, use, or operation of that part of the line or equipment which is located on the premises owned or occupied by the Customer.

6. This written contract embodies the entire agreement between the parties hereto and is not subject to modification by the verbal statements or representations of either party.

7. This Contract is non-cancellable and shall be and remain in full force and effect for a period of ten (10) years from and after the date hereof.
